Corrib Food Products as your supplier.

Some reasons why you should make Corrib Food Products your Number 1 choice food supplier.

- We will strive to offer you an unequalled service, ensuring a prompt delivery of orders and efficient processing of requirements in line with your needs and expectations.
- We offer a broad range of products that we are constantly adding to.
- We do our utmost to enhance customer satisfaction through effective communications.
- We have a well established Food Safety and Quality Management System in place, certified to the European Standard ISO9001:2008 and ISO22000:2005 respectively.

Why go with an ISO certified company?

The Reputation of ISO and the International recognition of the food safety management systems that ISO22000:2005 brings, improves our profile and credibility. The standard is accepted the world over. It helps us to ensure compliance with all food safety legislations. It demonstrates our strong commitment to food safety, while enhancing our product quality and safety.

Being certified against ISO Standards helps us develop and improve our performance. We are assessed by NSAI which helps us to continually use, monitor and improve our food safety and quality management systems and processes. This improves the reliability of our internal operations to meet customer requirements, as well as overall performance.

Do your other suppliers offer the same?

We would welcome you to come and visit our facilities, where one of our team will help you see, first hand, why you should pick Corrib Food Products.
